DESCRIPTION

A rare architectural signature in one of Caudéran's most sought-after areas.

This architect-designed home by Francisque Perrier is intended for a clientele sensitive to architecture and contemporary volumes.

Set on a beautifully landscaped plot of approximately 1,000 sqm, sheltered from view, the property offers around 230 sqm of living space where light and perspectives shape each area.

The reception room, approximately 70 sqm, forms the heart of the home. Widely open onto the garden and the swimming pool, it extends naturally towards the outdoors.

The separate kitchen offers generous volumes and can be redesigned according to your needs.

The house currently features 4 bedrooms, including a master suite with dressing room and shower room, with the possibility to create up to 6 bedrooms. A bathroom and an additional shower room complete the layout.

The property benefits from ample storage and extends to a basement housing a laundry room and boiler room.

Sheltered from view, the garden is arranged around the swimming pool, in an atmosphere designed to fully enjoy sunny days.

Volumes, light, and openings to the outdoors... everything here invites sharing and entertaining, in a home designed for family living as well as gatherings with friends.

Refurbishment works will reveal the full potential of this property and allow you to shape it to your own vision.
